Company:	Seatech
Client:	Seatech
Project Description:	Project support for bank. In the project, create functions base on design documnents like money transfer, change security protocol, action monitor, set default account v…v…
Responsibilities:	Create issues, develop Java
Programming Languages:	Java
Tools	Eclipse, Spring MVC, Hibernate, VSS
Platform, server and database	JavaEE, Windows, Oracle
Used technologies:	Java

MSB (12/2018 – 07/2019)

Company:	Seatech
Client:	Seatech
Project Description:	We create plugin, check content of plugin and put plugin to desktop like function. (Problem is the way to remember what action we just do)
Responsibilities:	Create issues, develop Java.
Programming Languages:	Java
Tools	Eclipse, Spring MVC, Dojo.
Platform, server and database	JavaEE, Windows
Used technologies:	Java

BIDV (03/2018 – 12/2018)

Company:	Seatech
Client:	Seatech
Project Description:	Support to create project for bank, create database for project. Develop the functions base on design document. Manage information of bank.
Responsibilities:	Create issues, develop Java.
Programming Languages:	Java
Tools	Eclipse, Spring MVC, Hibernate, Kendo UI
Platform, server and database	JavaEE, Windows, Oracle
Used technologies:	Java

Leaf Recognition Project (11/2015 – 02/2017)

Company:	Home
Client:	Home
Project Description:	Create leaf database. Take a picture, recognition leaf. After that, this system can recommend for user how to plan, how to use, where we can find it and informations about that tree.
Responsibilities:	Create issues, develop Java.
Programming Languages:	Java
Tools	Eclipse, Spring MVC, Hibernate
Platform, server and database	JavaEE, Windows, MySQL
Used technologies:	Java

ArcSight Project (08/2015 – 10/2015)

Company:	FPT Software
Client:	FPT Software
Project Description:	Check bugs on Jira, get request from customers. After that we need write summary about that bug and talking with customers.
Responsibilities:	- Fix bug, develop Java.
Programming Languages:	Java
Tools	Eclipse, arcSight library
Platform, server and database	JavaEE, Windows, Red Hat
Used technologies:	Java

Zxing Project (07/2013 – 03/2014)

Company:	FORCS
Client:	Forcs
Project Description:	Porting zxing project from java to C++ using G library
Responsibilities:	- Develop Java, C++.
Programming Languages:	Java, C++
Tools	Eclipse, G library, Zxing
Platform, server and database	JavaEE, Windows
Used technologies:	Java, MFC

Auto Building System (01/2013 – 07/2013)

Company:	FORCS
Client:	Forcs
Project Description:	This system supports the moving building product on PC to private cloud.
Responsibilities:	- Design. - Develop Java, SQL, HTML, JavaScript
Programming Languages:	Java, SQL, HTML, JavaScript
Tools	
Platform, server and database	JavaEE, Cloudstack, Windows, Linux
Used technologies:	Java, Mysql, Sqlite, Cloud Computing

SMS Content Management System (01/2012 - 01/2013)

Company:	VTC COMTECH
Client:	VTC Comtech
Project Description:	This project built content management systems to manage SMS content
Responsibilities:	- Developer C#, SQL
Programming Languages:	SQL, C#
Tools	MS SQL, Visual Studio
Platform, server and database	.NET, Window, MS SQL
Used technologies:	C#, MS SQL

LAKE (06/2011 - 10/2011)

Company:	VIETTEL SOFTWARE CENTER
Client:	Ministry of Agriculture and Rural Development
Project Description:	This system builds up reservoir information monitoring system. The information needs to be supervised in real time, for example, the water level, rainfall, flow. To manage reservoir information on a map and give notice to the relevant staff via SMS
Responsibilities:	- Communicate with customers to analyze requirements - Perform detail design. - Review other developers' code. - Develop Java, JSP, SQL
Programming Languages:	Java, My SQL
Tools	NetBean
Platform, server and database	Java, MySQL, Window
Used technologies:	Java SE, Viettel Framework

NIMS (01/2011-06/2011)

Company:	VIETTEL SOFTWARE CENTER
Client:	Viettel
Project Description:	NIMS Project: Building intelligent systems controlling Viettel network. Physical Information management system like BTS stations, optical fiber, copper cable, power station on a map using Google maps api.

Responsibilities:	- Develop Java, JSP
Programming Languages:	Java, Jsp
Tools	NetBean
Platform, server and database	Window, MySQL, Java
Used technologies:	Java, Viettel Framework

GatePro (07/2010-01/2011)

Company:	VIETTEL SOFTWARE CENTER
Client:	Viettel
Project Description:	GatePro Project: Build management system monitoring the impact of network. In addition to the information management of network node MSC, BSC, BTS, the system provides the user with a set of compiler (console, script,...) helping to write the script sent to the network node
Responsibilities:	- Develop Java
Programming Languages:	Java, JSP
Tools	NetBean, WinFIOL
Platform, server and database	Java, Window, MySQL, Linux
Used Technologies:	Java

PERSONAL INTERESTS

I like reading book, listening music, watching movies, playing football, badminton, playing game on my free time.
